Full-Stack Developer with 4+ years of experience in technologies such as *React & Svelte* and experience in *Node.js*, *MongoDB* and *C#*

TECHNICAL SKILLS

Frontend: **React, Svelte, Redux, Tailwind, TypeScript, React Native, GraphQL**

Backend: **NodeJS, C#, Express, REST, GraphQL**

Databases: **MongoDB, PostgreSQL**

Testing: **Jest, Vitest, Selenium WebDriver**

Dev Tools: **Git, Docker, CI/CD, AWS, Agile/Scrum**

PROFESSIONAL EXPERIENCE

KOPIUS

Dec 2022 - Present

Frontend Developer

- Development of various web apps in **React, Svelte, Redux, TypeScript** and **Tailwind** related to healthcare, reaching 100% test coverage using **Jest/Vitest**, reducing production bugs
- Developed a **NodeJS** app to connect an external API and our internal services, improving reliability and reducing failures
- Led the complete refactor of a 'patient/practitioner' calendar using **React, Redux, Tailwind** and **GraphQL**, improving its structure and efficiency

SOLVD

Oct 2021 - Dec 2022

Frontend Developer

- Increased the registration rate by simplifying the onboarding flow and redesigning the registration process using **React, Redux**, and **Tailwind**, improving the UX/UI

ENDAVA

Feb 2020 - Oct 2021

Full-Stack Developer

- Development of an app using **React, Redux, NodeJS**, and **MongoDB/PostgreSQL**
- Built and maintained a **React Native** app with focus on compliance with **WCAG 2.0 accessibility standards**

MERCADOLIBRE

Aug 2017 - Feb 2020

Productivity Engineer

- Led the development of internal tools that enhanced the developer experience, including **NPM packages, testing kits**, and frontends/backends in **React** and **Java**
- Improved code quality across the company through workshops, talks, and support on automation and testing for various development teams

INTIVE

Mar 2016 - Aug 2017

QA Automation Engineer

- Designed the automation solution architecture using **C#**, **Selenium WebDriver**, and the **Page Object** design pattern
- Performed manual testing of features to ensure functionality and quality
- Created, maintained, and executed test cases for regression testing

ACCENTURE

Sep 2014 - Mar 2016

Backend Developer

- Development of an internal app in **C#** to assist company managers in expense tracking and cash flows
- Automation of an internal tool using **CodedUI**
- Led a POC to swap from **CodedUI** to **Selenium WebDriver**
